Montana is bounded on the north by the Dominion of Canada; on the east by North and South Dakota; on the south by Wyoming and Idaho and on the west by Idaho. The eastern part of the state is a high plateau rising from an elevation of 2000 feet in the east to 4000 in the west and the western part comprises the consisting the production of the state of the stat Administry woming and Habio and on the west by Idaho. The eastern part of the state is a high plateau risional by woming and Habio and on the western bord on the west and the west and the working of a continuous proposed to the continuous proposed and the enclosed basin. Montana is larger than the British Isles and contains 30,000,000 acres of an Idaho and 26,000,000 acres of woods and mountains. The eastern plateau is fertile excepting for the Bad Lands of the lower veloovstone. The greatest rivers in America take their rise here. Clarke's Fork of the Columbia flows around litter Root Mountains to the westward; the Jefferson, Madison and Gallatin unite to form the mighty Missouri, which flows to the eastward across Montana for 1300 miles and is navigable from Three Forks to Gulf of Mexico, and its great tributary, the Yehowstone, which rises in Yehowstone park and stretches across southers are also as the state of the sta and the seeladed Kairsp I country. A small segment of the vellowstone National Park hes within Montana. The mineral springs of Montana are numbered by hundreds and some of them have attained fame as health resorts, such as the Hotel Broadwater, near Helena; Puller's, Hunter's and Lewis Hot Springs and White Sulphur, Bondder, Pipestone and Clancy Springs. The Warm Springs are 40 in number, containing iron, soda and magnesia and with a temperature of from 150 to 170 degrees. Here rises the wigwam-shaped Geyser cone, with its perpetual smoke ascending like a conneil-fire, the vicinity of which became the grazing ground of white-tailed deer and was called by the Indians the Lodge of White-Tailed deer and the whites called it Deer Lodge Valley." Montana has 24 counties, in all of which newspapers are published. The leading cities are: Helena, Butte, Anaconda, Missoula, Bozeman, Great Falls, Livingston, Billings, Fort Benton and Deer Lodge

Dem. 823; Pro. 3655; Peo. 1104. Nebraska is bounded on the north by South Dakota and the Missouri river; on the east by the Missouri river, which separates it from lowa and Missouri; on the south by Kansas and Colorado and on the west by Woming. The surface gradually rises from a few hundred feet in the southeast to 6000 feet in the far west. Has our river; the central portain the Three Statem and northers seen portions of the state are drained by the another border by the Republican which crosses the southwestern corner of the state. The Bad Links of Dakota run into the northern part of Nebraska. The seemic features of this region are grand and the most important one is the canon of the Niobrara. The inhabitants of the state have made up for the natural deficiency in forests by planting over 700,000,000 trees. The state's manufactures consist of packed meats, canned goods, flour and farming implements and aggregate \$50,000,000 ayear. Omaha is the third greatest live stock market in the world. Agriculture and stock raising are the leading industries. Nebraska ranks fourth a mong the corn producing states, raising 167,652,000 bushels annually; the state produces over 18,000,000 bushels of wheat, 30,000,000 worth of sheep, \$15,000,000 worth of miles, \$40,000,000 worth of dairy products are produced every year. Nebraska has 90 counters and newspapers are published in all. The leading cities are: Omaha, Lincoln, Beatrice, Hastings, Nebraska City, Platsmonth, Kearney, South Omaha, Grand Island and Fremont. New Hampshire, the "Granite state," is bounded on the north by Canada; on the east by Maine and the Atlantic ocean; on the south by Massachusetts and on the west by Vermont, with the Connecticut river for the boundary. The White mountains cross the northern part of the state and culminate in Mount Washington, 6300 feet high. The scenic features of this region has led to its being called the "switzerland of America" and thousands annually make it their summer home. All of the northern and western parts are drained by the Connecticut river and its branches, and the southeastern by the Merrinack. The soil along the Connecticut is unsurpassed and large crops of hay, grain and tobacco are raised. The Merrinack makes a rapid descent throughout most of its course and turns more mill wheels than any other stream in the world. New Hampshire is of sea coast enbarace several bathing leaches, hardly surpassed ground in the latter connection, her Is miles of sea coast enbarace several bathing leaches, hardly surpassed ground in the state connection her latter connection. of sea coast embrace several bathing beaches, hardly surpassed in attractiveness for summer visitors. Publisher's Statement.—These two papers are the leaders in republican journalism in a soundly republican state. The Statesman is the central organ of the dominant party and is the official paper of the state by act of the legislature, and of the state and federal courts. Its circulation is wholly among the well-to-do people of the state many of whom have had the paper in their families since the first issue. Its service is efficient and its returns to advertisers Its service is efficient and its returns to advertisers are remarkable. The Monitor is the chief paper published at the capital. It enjoys a full leased wire service from the Associated press and its special newservice is accurate and enterprising. It is essentially the home paper in a city of homes and it is very popular on the score of rural free delivery routes which centre at Capacita. which center at Concord.

Publisher's Statement,-The Daily Telegraph has the Associated Press news, and is the only paper in Nashua to have any wire news service whatever. The paper is delivered by carriers to all parts of the city, and also in the adjoining towns of Hudson, Milford and Wilton, N. H., and in East Pepperell, Mass. The value of the Telegraph to advertisers is attested to by the fact that it carries 50 per cent more local and foreign advertising and its paid circulation is larger than any other paper in Nashua, a fact that it is ever willing to demonstrate. It goes to the purchasing class. The Weckly Telegraph circulates largely in Southern New Hampshire and is prominent in Grange circles, the secretary of the State Grange editing its Grange news.

NEW JERSEY.

Capital, Trenton. Settled at Bergen by Dutchmen in 1627. Population, 1,883,669. Area, 8173 sq. miles Acres of farm land, 2,929,773; value of farm land, 8190,895,833; animal value of farm products, 829,650,756. No state debt. Vote in 1900; Rep. 221,707; Dem. 164,808; Pro. 7183; Soc. Dem. 4609.

New Jersey is a peninsula bounded on the north by New York; on the east by the Hudson river, New York bay and the Atlantic Ocean; on the south by the Atlantic ocean and Delaware river and bay and on the west by the Delaware river which separates it from Pennsylvania and Delaware, "New Jersey may be divided into the northern mountains, the central hill country and the southern pine forests, sandy plains and marshes." The state has 120 miles of sandy beaches, to which the people flock by hundreds of thousands in the warm months. New Jersey is drained by the Delaware, Hackensack, Passaic, Raritan, Great Egg Harbor and Little Egg Harbor rivers. The fisheries of the state employ 6000 people and the annual catch, mostly oysters, is valued at 83,000,000. Agriculture employs 30000 people who raise 600,000 tons of bay, 10,000,000 bushels of corn, 2,000,000 bushels of wheat, 2,000,000 bayses of peaches and 234,000 bushels of wheat, 2,000,000 bushels of wheat, 2,000,000 bushels of wheat, 2,000,000 bushels of the state leads in the production of slik, pottery, glass and cast iron pipe and ranks second in the manufacture of hats, third in the production of bluestone, fourth in the production of zine and seventh in sandstone and iron and steel, There are 7000 manufactories, with \$110,000,000 capital, 130,000 operatives and an annual product worth \$230,000,000, the latter comprising 1,000,000 tons iron or, 40000 tons zine, 9,000,000 hats, \$3,000,000 worth of silk goods. New Jersey has the largest sewing machine company and linen and thread works in the world and the kargest bottle glass works in America. There are 50 distilleries, making 20,000,000 and ire-clays of Trenton, Woodbridge and Amboy Terra-Cover, and highly value in the arts. The Baritan and Delaware districts yearly send out 250,000 tons of fire-clay and potters' clay, valued at \$460,000, and 80800 tons of fire-sand. From Sandy Hook to Salem extend beds of mark (eds) mark and shell mark), which 200,000 tons are used yearly for fertilizing the soil." Two-fifths of the area of New Jersey is in forests, the annual product of which in huel and lumber is valued at \$5,000,000. The lightlands of Navesink, long-branch, Elberon, where President Garfield died; Asbury Park and Ocean Grove, famous Methodist camp meeting grounds; Sea Girt, with the camp of the New Jersey National Guard: Point Pleasant, the oldest seasor resort on the coast; Tom's River and Tuckerton, quiet old maritime villages; Atlantic City, both a summer and winter resort; Cape May in Delaware bay, Lakewood, Brown's Mills, Greenwood Lake, Lake Hopatcong and Schooley's Mountains are among New Jersey's many famous summer and winter health and pleasure resorts. New Jersey has 21 counties and newspapers are published in all. The leading cities are; Newark, Jersey City, Paterson, Camdon, Trenton, Hoboken, Elizabeth, Bayonne, Orange and New Brunswick.

Publisher's Statement,—The East Side Press is the recognized as well as the acknowledged weekly medium for all atlairs pertaining to Canden's big East Side section, containing 15,000 residents. The Press is powerful as well as influential because it enters the homes of intelligent city-subarban people, by way of the post-office. Our motto is "quality rather than quantity." The Press produces a page of exchasive half-tone illustrated articles each issue, as well as two fascinating short stories. The sparking "Comment" is the "talk of the town"—sarcastic and otherwise. We've won 35 per cent of all the various fights in which we have induged—political, monal and physical, and expect to do better still, which we have made to be the still of the product of the page o enters the homes of intelligent city-suburban people. business, howe ver, and these patrons always get the reserved seats in the best part of the house

.....3-4000 Publisher's Statement.—Poughkeepsie News-Presspiblishes a seven columi, eight pags, daily, and publishes a sixteen page weekly edition, the News-Telegraph, the oldest democratic paper in the state and the only one in Dutchess county. The News-Press is the only one in Dutchess county. The News-Press is delivered at the homes of its subscribers by carrier and special routes in the county every morning, and the News-Telegraph has the advantage of prompt de-livery all through the Hudson Valley and through Dutchess and adjacent counties by rural free delivery routes. The News-Press reaches the homes of all classes in the city, and the News-Telegraph has been the family paper devoted to agricultural interests of Dutchess county for a century. One of its early editors was Benson J. Lossing, the American historian. The chief aim of the publishers is to make an acceptable family newspaper in every respect.

Publisher's Statement.—The Observer has long held the evening field and was never before so strong as now. A widely-quoted paper is always a favorite at home. Advertising is benefited by the character of the paper carrying it. The Observer is the home paper of Utica, and its eity circulation is larger than that of any competitor. The Twice-a-Week Observer is the favorite farm and fireside paper in Central New York. See advertisement.

NORTH DAKOTA.

Capital, Bismarck. Settled at Pembina by French Canadians in 1780. Population, 319,146. Area, 70879 sq. miles. State debt, \$540,000. Yote in 1900; Rep, 35891; Pem, 20519; Pro, 731; Peo, 110; Soc. Bem. 418. North Dakota is bounded on the north by the Dominion of Canada; on the east by the Red trace of the State in the Minnesota; on the South Bukota and on the weet of North and the surface of the state, for the most part bevist; on the South Bukota and on the weet of North and the stributates. State, for the most part bevist; there are 50000 acres under cultivation and 60,000,000 bushes in the world, 700,000 bushes of corn and 16,47,0000 bushes of order are 1,000,000 farmanimals worth nearly \$20,000,000. "Yast quantities of pine logs are doated down from the Otter-Tail and Red Lake pineries to the samilis at Grank Forks. This region is the garden of the state and nearly always produces rich harvests, even when some other localities are injured by droughts. Several of the bonainza wheat farms of the Red River Valbey are from 5000 to 15000 acres can in a rea, with a large number above 1000 acres. The famous balrymple farm covers 75000 acres; and the domains of the Grandins are even more extensive. The most thorough system governs these estates; and their large rores of men are organized into divisions, each with its superintendent and foreman and buildings, and all reporting to a general manager. With gang-plows, seeders, self-binding harvesters, steam threshers and other modern implements, the cost of raising wheat has been reduced to 55 cents a bushel. The wheat of North Dakota is unexcelled in quality and heavily lake and Casselton.

Publisher's Statement,- Since the advent of the present progressive management and absorption of a competing daily, the Signal has unquestionably gained a decided lead in Middletown, one of the most presa decided lead in Middletown, one of the most pr-s-perous and rapidly growing manufacturing cities in Ohio. A "straw" as to effectiveness of this medium, Druggists unitedly and heartily recommend the Signal. Guaranteed average of 2,540 on the daily, while the weekly Signal is strong throughout the vicinity.

OKLAHOMA.

Capital, Guthrie. Settled at Guthrie by Americans in 1889. Population, 398,331. Area, 38958 sq. miles. Vote in 196.0; Rep. 38250; Fus. 33539; Feo. 780.

Oklahoma is bounded on the north by Colorado and Kansas; on the east by Indian Territory; on the south by Texas and Red river and on the west by New Mexico. This territory was purchased from the Creek Indians by the U.S. government in 1889 and its settlement by the "Oklahoma boomers" and the making of a city of 10000 inhabitants in a day is a familiar story. Since then its growth has been so rapid that the territory aspires to statehood. "The original Oklahoma district, west of the Creek Nation, contains the chief towns in the territory; Guthrie, Kingisher, Oklahoma City, Norman and others and large acres of farming land. The greater eart of Oklahoma is still occupied by wild tribes of Indians, who rove up and down over lands set apart for them in 1867-8, but not patented to them. They receive regular supplies of money, clothing and provisions from the government and are ruled by agents appointed by the president, strengthened by considerable garrisons of regular troops near the agencies. The wild tribes are hardly touched by civilization (except in its vices and still assemble for their cruel sun-dance and pagan festivals, practice polygamy and girl-selling, and look with haughty secon upon their comfortable, peaceable and well-to-do brether of Five Nations." The principal tribes represented are the Saes and Foxes, Omahas, Nebraskas, Kickapoos, Shawess, Cheyennes, Araparlors, Kiowas, Comanches, Ayaches, Wichtats, Delawares, Caddoos, Towaconies, Wacoes, Keechies, Osages, Kunsas, Pawnees, Otocs and Missourias. Oklahoma has over 1,000,000 acres of farms, valued at nearly \$5,000. The soil is well adapted to the production of cereals, ection, flax, soughmin, broomeour and potatoes. No man's Land, 3,700,000 acres, lying west of 100 degrees, was organized as the Ferritory of Chimacon iv is inhabitants in 1880, but Congress failed to recognize it and in 1880 it became

Oregon is bounded on the north by the Columbia river and Washington; on the east by the Snake river and Idaho; on the south by Xevada and California and on the west by the Pacific occan. This state is twice as large

Idaho; on the south by Acvada and California and on the west by the Pacific ocean. This state is twice as large as England. The Cascade mountains, crossing the state from north to south, have an average elevation of 8000 feet, and many lofty peaks, of which the most important are: Mt. Hood, 11225 feet; Mt. Jefferson, 10200 feet, Three Sisters, Drummond Peak and Mts. Seott and Pitt. The third of the state west of the mountains is the most valuable portion. Here is the famous Willamette Valley with its hop fields, fruit orchards and dairy farms. nost valuable portion. Here is the famous Willamette Valley with its hop fields, fruit orchards and dairy farms, in the northeastern portion is the great dwiard region of Oregon. The great Columbia river, mayigable for 1200 ailes, flows along the northern border and with its tributaries, the Willamette and Snake rivers, drains all but the southern border. The principal lakes are: Crater, Upper and Lower Klamath and Wallowa lakes, the latter 6000 feet above see level. Oregon ranks second in the Pacific coast fisheries and first in the salmon fisheries. Over 600,000 cases of salmon have been canned in a single season. The state have re 2,000,000 invested in the fisheries and the annual catch is worth over \$1,000,000. In the production of cereals the state ranks second on the Pacific coast. The annual production of wheat is 13,149,000 bushels; not, 6,000,000 bushels; hops, 3,811,349 pounds; hay, 600,000 tons; apples, 2,500,000 bushels and wood, 7,500,000 pounds. Publisher's Statement.-Lancaster County is the

richest agricultural district in the United States and stands well to the front in industrial and countercial pursuits. Outside of Lancaster city, with a population of 45,000, there are over a dozen towns and boroughs in the county with populations ranging from two to fifteen thousand. All are connected with Lancaster by trolley, and The Examiner is delivered in them by carrier almost as promptly as in Lancaster city. It is recognized as the leading republican paper in the county, and the best advertising medium in that section of Pennsylvania.

Trolley to Allegheny and surrounding towns. On November 23, 1753. George Washington arrived, indee orders from 60s. During the Washington arrived, indee orders from 60s. During the Washington. arrived, under orders from Gov. Dinwiddle of Virginia, to establish a fort at the junction of the Allegheny and Monongahela rivers. (Washington wrote in his diary on first viewing the territory embraced in The Forks, "This would be a good place for a mill." He did not say what kind of a mill; it was not necessary, for to-day, Pittsburg and is river front for over 20 miles are thereafly crowded with mills of every description.) The Allegheny, Monongahela and Ohiorivers form a water-Allegheny, Monongahela and Ohio rivers form a water-way for enormous freight and passenger traffe, extending 100 miles north by the Allegheny, 100 miles south into West Virginia by the Monongahela and by way of the Ohio river south to the Gulf of Mexico, west to the foot of the Rocky mountains and north to the Canadian border. No better idea of the enormous traffic of Pittsburg can be had than a statement of the uscertained tomage for a single year: Traffic by rail-ways, 3.6.79,415 tons; traffic, harbor on rivers, 7.318,366 tons; total, 43,907,718 tons. Publisher's Statement,—Charleston is the only city of national importance in its State. This is proven by the recent purchase by the Government of a large site for a Naval Station and one of the largest Dry backs in the Docks in the world, upon which millions are to be ex-Docks in the world, upon winch minions are to be ex-pended. Every interest of South Carolina is con-trolled from thatleston. The News and Courier was founded in 1803, and is the one and only important paper in the state. There is no other state in the Union in which one paper so completely dominates the entire field. There is no competery dominates worthy of the name. To speak to South Carolina, you must speak through The News and Courier, and that is sufficient to reach every corner of the state.

SOUTH DAKOTA.

Settled at Sioux Falls by Iowans in 1857. Population, 401,570. Area, 77580 sq. miles,

Capital, Pierre. Settied at Sioux Falls by Iowans in 1857. Population, 401,570. Area, 77580 sq. miles. Vots in 1900: D nn, 35544; Rep. 54530; Iro. 1542; Peo. 339.

South Iakota is bounded on the north by North Dakota; on the east by Minnesota and Iowa; on the south by the Missouri river and Nebraska and on the west by Montana and Wyoning. South Dakota is a vast plain, larger than New England, diversified by the Back Hills in the west and many beautiful lakes in the east. The state is drained by the Missouri and its tributaries, the James, White, Bad. Cheyenne, Owl and Grand rivers. Agriculture is the leading industry, with 50000 farms, annually producing 32,725,000 bushles forcm; 39,000,000 bushles of wheat; 2,200,000 bushles potatoes and 1,500,000 tons prarrie hay. The state has 386,000 swine, 527,000 cuttle, 200,000 horses, and 158,000 sheep producing 5,000,000 pounds of wood a year. South Dakota produces \$3,000,000 in gold, \$125,000 in silver and 30000 pounds of Portland cement every year. "The Pine Ridge, Vankton, Roseboud, Cheyenne-River, Crow-Creek and Sisseton reservations contain 18500 South Indians and 500 Northern Cheyennes, under the care of their chiefs, United States agents, native police and Catholic and Episcopal clergy. These denizes of the plains are yielding satisfactorily to civilization. Indian Industrial schools have been established at the capital city, Pierre, and at Floudeau, Chamberlain and Rapid City, in which Indian chidren are taught the useful in echanical arts. This school is maintained by the general government, and several commodious brick structures have already been built, som; of which will be provided with machin-chird and the useful appliances." Newspapers are published in 54 of the 78 counties of the state. The leading cities and towns are: Sioux Falls, Yankton, Pierre, Aberdeen, Buron, Watertown, Lead City and Deadwood.

published every afternoon except Sunday, guarantees a circulation exceeding 17,000 copies daily, and covers more than six hundred towns in this and adcovers more than six handred towns in this and ad-joining states. Chattanooga, by virtue of her manu-facturing establishments, texceeded four hundred different plants, is an "Afternoon PaperTown." The News has double the circulation of the morning paper in this city, which it covers thoroughly. It not only covers the city, but in addition, covers the entire "Chattanooga District." It pays nearly as much post-age for its six issues a week, as all the other papers, seventeen in number, entered at the Chattanooga post office, combined. This fact can be verified by a letter written to the postmaster of this city. The News is printed on a Three Deck Straight Line Goss Printing press, which has a capacity of 25,000 copies News is printed on a Three beck Straight Line Goss Printing press, which has a capacity of 25,000 copies an hour, and which cost more than \$20,000. No other printing press in this town has a capacity over 10,000 an hour. The News carries more advertising than any other Chattanooga paper, and is the leader in circulation and influence. The news prints from ten to sixteen pages daily, The other Chattanooga paper prints only eight. The weekly News exceeds 10,000 copies each issue.

In Feb-ruary 1903, it bought the Weekly West Tennessee Whig and consolidated its subscription list with that of the Dispatch. It is the only paper published in Jackson that reaches the farmers of the surrounding country. By the personal solicitation of traveling agents, who make a house-to-house canvass in the surrounding country and by liberal clubbing offers, its circulation is not only maintained, but is largely in-creased each year. The Dispatch is popular with all classes because it is reliable and watches the interests of the people. It is a good advertising medium in all lines of business.

   Pathistic's Statement,—the Light is an inde-
pendent republican. The population of the city is
estimated at 65,000. Full Associated Press service,
Official journal of the city. For many years the only
republican paper in the South. City circulation
double that of any morning paper. As an evidence
of its popularity at home, it has won four straight
political lights. It is a paper for the people.

Publisher's Statement.—The Herald delivers over a Publisher's Statement—The Herald delivers over a thousand more papers by carrier in Salt Lake than any other daily; its circulation is a known quantity and its boars are open to all advertisers. It circulates in Utah, Idaho, Western Wyoming and Eastern Nevada on the day of publication. Practically all the business men of this section and region take the Herald, and it is especially strong in home circulation—the kind that counts. The Herald's foreign advertising has more than doubled in less than a year past; its local columns include every prominent salt Lake advertiser.

VERMONT.

Capital, Montpelier. Settled at Brattleboro by Massachusetts men in 1763. Population, 343,641. Area, 9563 8q, miles, Acres of farm land, 4,882,588; value of farm land, 8109,346,010; annual value of farm products, 822,082,636, 8tate debt, none. Vote in 1900; Rep. 42568; Dem. 12849; Pro, 950. Vermont, the northwestern state of New England, is bounded on the north by Quebec; on the east by New Hampshire; on the south by Massachusetts and on the west by New York. The Green mountains travesse it from north to south in two principal ranges, for the most part covered with evergreen forests, with fine pastures on the slopes. The highest mountains are: Mansfield 3385 feet and Killipton 4241 feet. The state is trained to the state of the west and by numerous branches, or blockers and the coal, in the cast. The Green mountains, the lakes, Champlain, Memphrenageg, and many smaller ones, and the coal, invigorating air during the summer months, combine to offer attractions that make the state a resort for pleasure seekers. There is rich soil in all the river valleys, and this state has the third largest per cent of improved farm land in the country. In proportion to size, Vermont is the leading dairy state, with an annual butter product of 25,000,000 lbs. Vermont maple sugar is famous the country over and the state furnishes one-third of the total American product. One million tons of hay are raised annually and potatoes and oats are produced to the value of \$2,000,000 cach. Vermont continues to lead the world in the quality of Spanish Merino sheep. Logs from the hills of Northern Vermont and Canada are floated down the rivers that flow into Lake Champlain, and Burlington is the third greatest lumber port in America. Rutland is the greatest marble centre in the country and Vermont furnishes three-fourths of the total product of the United States. Otter Creek valley contains 40 quarries and furnishes employment for 4500 men. The Vermont Marble Co., the largest in the world, with a capital of \$5,000,000, owns the largest single quarry in the world, employs 1400 men and operates 20 miles of railway connecting its different plants. The other principal quarries are at Dorset, New Haven, Roxbury, Brandon, Middlebury, Swanton, St. Albans and Castleton. The granite industry of Vermont, second only to the marble burses, centres around Barre, where there are 35 firms employing 1200 men, with an annual output of 20000 tons. Other granite towns are where there are 35 frms employing 1200 men, with an annual output of 20000 tons. Other granife towns are Dummerston and Ryegate. Slate quarries of considerable importance are at Fairhaven and Castleton. Half a million barrels of lime and more than five billion brick are made in the state every year. The manufactures include the farming and dairying implements of Bellows Falls, the parlor organs of Brattleboro, the scales of 8t. Johnsbury and Rutland, the paper of Oleott, the woolens of Burlington and the leather of the Hyde Park sameries, the largest in the United States. The Fairbanks Scale Co. of 8t. Johnsbury is the largest of its kind in existence, with a force of 700 men and \$2,500,000 capital and sends its product everywhere. There are 14 counties in Vermont and newspapers are published in 13. The principal towns are Burlington, Rutland, 8t. Albans, Brattleboro, Barre, 8t, Johnsbury, Bennington, Bellows Falls and Montpelier.

Capital, Richmond. Settled at Jamestown by Englishmen in 1607. Population, L854,184. Area, 42330 sq. miles. Acres of farm land, 19,910,760; value of farm rand, \$216,028,197; annual value of farm products, \$43,726,221. State debt, \$31,525,555. Vote in 1900; Dem. 146,080; Rep. 115,865; Pro. 2150. Viginia is bounded on the northwest by Kentucky and West Uriginia; on the northeast by the Potomac river, which separates it from Maryland; on the east by Chesapeake bay and the Atlantic ocean and on the south by North Carolina and Tennessee. Viginia comprises six grand divisions, the surface gradually rising toward the west; The Tidewater, Middle, Piedmont, Blue Ridge, Valley and Appalachian sections. East of the mountains the state is drained by the Potomac, Rappalannock, Vork and James rivers and their tributary streams. The shenandoah drains the famous Shenandoah valley in the northwest. Agriculture is the leading industry and the farms of Virginia annually produce 37,000,000 bushels of vorts, 5,614,000 bushels of wheat and 6,587,000 bushels of oats. The state ranks second in the production of tobacco, with an annual crop valued at \$2,578,120. Fruits and vegetables are produced in large quantities. The state has 251,000 horses, worth \$12,000,000; 530,000 cattle, worth \$7,000,000 bushels of worth \$12,000,000; 530,000 cattle, worth \$7,000,000 bushels, and 447,000 hogs. The old hominon produces 160,000 tons of pig iron, 40000 tons rolled iron, 1,400,000 tons of coal, 20000 tons lead and considerable gold every year. Virginia's Rannulactures, the most important of which are tobacco, iron, flour, coke, leather, lumber and cotton, amount to \$75,000,000 a year. The making of eigerettes has brought a world-wide parronage to Richmond, where the old house of Allen & Ginter was the first ever to use for eigerettes has brought a produced of Richmond which owns and op-vates practically all the eigerette factories in this country." The Cascade mountains divide Washington is bounded on the north by British Columbia; on the east by Idalio; on the south by the Columbia river, which separates it from Oregon and on the west by the Pacific ocean. The Cascade mountains divide the state into castern Washington, a vast extent of farming and grazing land and western Washington, a mountains district clad with forests. The state has 20,000,000 acres of timber, 1000,000 acres of arable land, 5,000,000 acres of forests and mineral lands. Mount Tacoma, in the western part of Washington is one of the grandest mountain peaks in America. "Near the Columbia river are the lofty volcanic cones of Mr. Adams and Mt. 8t. Helen's, each nearly 10000 feet high and visible over many leagues of the valley. In the north stands Mt. Baker, 10755 feet high, a volcano which had cruptions in 1843, 1854, 1858 and 1870, pouring out vast volumes of smoke 2000 feet high and covering the courty with ashes like a snowfall." East of the mountains the state is drained by foreign and single western Washington is drained by several short streams flowing into Tiget sound. The latter is one of the most because the state of the state of the propers of Puget sound reach \$2,000,000 a year, two thirds of it along the coast and the rest to foreign ports. Washington ships 200,000 tons of wheat to Europe yearly; and when the Isthmus of Panama is pierced, grain-laden steamships can run from Puget sound to Liverpool in three weeks, saving 40 per cent in cost of shipment which is now 35 shillings a ton.) The nine mountainous islands of San Juan county abound in seenic beauty. The 2000 islanders are mainly fruit farmers and shepherds' and have seven churches and ten post-offices. Steamers run daily from the Archipelago, alternately to Port Townsend and Schone. The islands have deposits of iron and narble and so make and export 400,000 barrels of lime every year. It published tully two-thirds of the legal notices of the county, and is recognized as a legal publication paper. Since December 21, 1901, no issue of the Saturday Spec-tator has been less than 5,000 each week, and this number is guaranteed to the advertiser, or no pay. It is a wide-awake, up-to-date, newsy publication, free from scandal and vulgarism, but prints all the news that is fit for print, in a liberal ideaed, crispy style. Does not belong to a trust, and its editor has a soul of his own. Our Policy: Justice to all, favors to none. Our Creed: The Golden Rule.

Wisconsin is bounded on the northeast by Lake Superior, Michigan and Lake Michigan; on the east by Lake Michigan; on the south by Illinois and on the west by Minnesota and the Mississippi river, which separates it from southern Minnesota. The eastern portion of the state is drained by the numerous small streams flowing into Lake Michigan, the central and western portions by the Wisconsin and Chippewa, tributaries of the mighty into take Michigan, the central and westerin portions by the Wisconsin and Chippewa, tributaries of the mighty Mississippi. The farms of Wisconsin produce animally 43,000,000 bushels of oas, 38,000,000 bushels of corn, 21,000,000 bushels of wheat, 12,000,000 bushels of particles, 1,700,000 bushels of apples, 2,300,000 tons of hay and 30,000,000 bushels of tobacco. The state hs, 1,200,000 head of cattle, 400,000 horses, 900,000 sheep and 800,000 swine, valued altogether at 880,000,000. The dairnes turn out 36,000,000 bunds of butter and 33,000,000 bunds of butter and 30,000,000 butter and 30,000 bunds of butter and 30,000 bunds and 30,000 bunds of butter and 30,000 bunds and 30,000 bunds but maily turn out 800,000 tons of iron ore. The state also produces 50,000,000 brick and 500,000 barrels of quick lime every year. Wisconsin's factories number over 10000, with an annual product of over \$150,000,000. "Forests still cover nearly half of Wisconsin, whose exports of lumber are only excelled by Michigan and Pennsyivania. The pineries are a source of great wealth because of the measing demand for lumber from the prairie states; and \$27,000,000 worth of lumber, lath and shingles are made here yearly by 30000 men. The Wisconsin forests have developed an enormous value and now produce early 3,000,000,000 feed of lumber, over 1,300,000,000 laths and shingles, 60,000,000 staves and 8,000,000 sets of headings every year. Newspapers are published in all the 70 counties in Wisconsin. The leading cities are: Milwaukee, La Crosse, Oshkosh, Racine, Eau Claire, Sheboygan, Madison, Fond du Lac, Superior and Appleton.

Publisher's Statement.-The Racine Daily dourranasmer's Statement.—The racine Daily Jour-nal, the leading paper in the second city of Wiscon-sm is delivered by carriers into the homes of over 3,000 prosperous manufacturers, merchants and me-chanics. It is admittedly the best newspaper in the channes. It is admittenly the best newspaper in the city, presenting twice as much local news as its com-p-titors besides the full Associated Press report, the only paper in the city using a telegraph service of any kind. It is the paper home merchants use first, and recommend to outsiders as the best advertising medium for reaching the people of this pros-p-rous manufacturing town. The 7,000 Racine me-chanics average better pay than any city of its size in the northwest.

ALASKA.

Capital, Sitka. Settled at Kadiak by Russians in 1784. Annexed to the United States in 1867. Population, 63592. Area, 599,446 sq. miles. No farm land. No public debt.

Alaska, formerly Russian America, the most northwesterly portion of the United States, is bounded on the north by the Arctic ocean; on the east by Canada; on the south by Canada and the Pacific ocean and on the west by the Bering sea. Like a great elephant's head with the trunk pointing westward toward Asia lies this portion of our country, imperial in domain, incredibly rich in many resources and yet until within a year, in the popular mind, almost forgotten. On the British Empire the sun never sets has long been true, but since the acquisition of Alaska, it is equally true of America. The northern portion of the mainland is a vast frozen plain; there are ranges of hills on either sides of the Yukon, the mighty stream that drains the central part; south of these is a comparatively level belt; and continuations of the flocky and excade mountains extend along the entire coast from Prince of Wales Island to the western extremity of the Alaskan peninsula, culminating in St. Elias range with their glants, Wrangell and Logan, about 20000 decendence, many that are extinct and a number of glaciers that, like Muir and Davidson, rival or surpass any in the old world. The region along the upper courses of the Yukon has long been known to be rich in gold and the Alaska Mining and Milling Company has annually sent \$1,000,000 worth of ore to San Francisco for reduction and refining, but in the early part of 1897 new discoveries were made on Klondike river, on the Canadian side by Joseph La Due and others that turned the attention of the world to this region, and then began an exodus thither that has already brought some 20000 miners and traders to Alaska. Later finds on Stewart river and Forty-mile Creek, are said to surpass the original discoveries on the Klondike. The early having the advance of the San Colonies in America, transa-tions in the skins of fur instory of Alaska is a instery of the train and "at an early day in the instory of the filtistant Colonies in America, transactions in the skins of fur seals began to rival in magnitude the trade of sea otter skins." It is said that in 1785, 500,000 fur seals were killed by the Russian hunters. History repeats itself; it was not long after this that the seal fisheries became almost extinct. The Russian Hunerial Chamberfalia, Nicolai Rezanot, visited the that the seal fisheries have been almost extinct. The Russian Imperial Chamberfalia, Nicolai Rezanot, visited the state of the seal of t Canadian Indians and the governing and teaching classes of American and Russians, in the south and south-cast; and by the Aleuts, Mongols resembling the Japanese, of whom there are about 2000 on the principal islands. There are 18 government schools and religion and elocution are both fostered by the Greek, Roman Catholie, Episcopal and other clurches which maintain 32 mission schools. The principal towns and settle-ments are: Sirka, Juneau, Dawson, Dyca, Hoonah, MetLakahtia, Pouglas City, Chaalashka, Pribliof Island Douglas Island.

JUNEAU, 5000; 75m NE of Sitka on Pacific coast with steamers to San Francisco. Mining, fishing and lum-bering are the town's chief pursuits. Is the metropolis of southeastern Alaska. Express; Telegraph, Nanaimo. First Nat, Bank.

Publisher's Statement.—The Daily Times has a circulation in the city of St. Thomas nearly double that of any other newspaper. Its circulation in the town-

ships and nearby towns and villages is also large, the ships and pead of toward by special carriers and by four stages on leading roads. The outside is also served by six trains departing North, South, East and West by six trains departing North, South, East and West during the early aftermoon. The Weekly Times circulates among the progressive, agricultural homes of Elgin, and also in Kent, Middlesse, Oxford and Norfolk countres. St. Thomas has a population of 13,000, It has fine leading railroad lines. There is a variety of manufacturing industries, and the working men are paid well. The rural districts are peopled by well-to-do and intelligent farmers, and a drive on the good roads of the county of Elgin is a delight in its revelation of well-kept farms and residences equal to city homes. Elgin county is the garden of Southwestern Ontario, and the Times is the favorite newspaper in both city and country. paper in both city and country.

PART III

PUBLISHERS' DEPARTMENT

Advertisements of Newspapers

The great art in writing advertisements is the finding out a proper method to catch the reader's eye: without which a good thing may pass over unobserved, or be lost among commissions of bankrupt.—Addison.

As advertising men you know that it's the successful merchant that advertises. Advertising may be, and probably is, the cause of his success, but it is nevertheless also an evidence of it.

Advertising is one of the earmarks of a prosperous business. When you go into a new town you can make a pretty accurate list of its successful tradesmen by simply going through the local papers.

The same principle holds true in the realm of the fourth estate. The newspapers that advertise are the progressive, pushing, up-to-date, prosperous papers. Take, for instance, the special newspaper announcements on the following pages. The papers that advertise in PETTINGILL'S NEWS-PAPER DIRECTORY AND GAZETTEER are of the best and most influential papers of the cities and towns they represent.

Again these advertisements are valuable as affording special information about these different papers—information which the close student of advertising mediums could not get in any other way, unless it were by correspondence with each paper.

It is understood that we are the authorized agents for each one of these papers, and can furnish any special information or quote lowest advertising rates.

PETTINGILL & CO.

Bridging the Continent

Hearst's Sunday Magazine

How to Wield a Million and a Third Circulation

As a Magazine Problem

As an Advertising Weapon

The exact point where the popular magazine and the popular newspaper converge has at last been determined. It has been occupied.

With the advent of **Hearst's Sunday Magazine** there has been a combination of the phenomena of the popular monthly and the illustrated, illuminated Sunday newspaper. resulting in a positively new wonder in the publishing world.

It has brought with it problems all its own—yet problems which are simple in view of the facilities at hand for dealing with them.

It is essentially a magazine from its poster cover to its last line, its only similarity to a newspaper being in the size of the page, which for convenience in distribution is made the same as the newspaper page.

By giving **Hearst's Sunday Magazine** the immediate benefit of three extraordinarily large and contiguous circulations, a sum total of circulation and of influence has been reached which places this new giant entirely beyond comparison.

It is, beyond any doubt, the most widely circulated magazine on earth.

Its distribution alone would present a problem too large for any other publisher, and could not be attempted by its proprietor were he not already the proprietor of three widely separated and most efficient circulation departments.

A Total of 5,600,000 Copies a Month

It may be true that **Hearst's Sunday Magazine**, with its prodigious circulation of 1,400,000 copies a week, or 5,600,000 copies a month, would be impossible without the three great Hearst newspapers to carry it to its readers.

But having this most powerful agency of circulation, and having already proved its ability to extend this combined circulation indefinitely, **Hearst's Sunday Magazine** has achieved an individuality which gives it rank at the forefront of the procession of popular magazines.

The popular monthly has for several years been coming closer to the style of the Sunday newspaper. The Sunday newspaper, in turn, has been approaching the general style of the monthly magazine in its illustrated features.

Coupling them together in a publication which is absolutely without a rival, the Hearst newspapers find themselves linked by an advertising medium whose power for giving profitable publicity can hardly be measured.

It goes out as a magazine supplement of the Sunday issues of the New York American and Journal, Hearst's Chicago American and the San Francisco Examiner. Each of these newspapers has far and away the largest circulation in the city of its publication.

How these three combined circulations on Sunday reach out from the three centers of population until their circumferences touch in an east and west line which is thus made continuous across the continent, each of the circles extending from the Canadian line to the Gulf, is indicated by the number of trains utilized in the work of distribution.

It is an absolute covering of the whole of the United States with one day's newspaper, accompanied by an attractive magazine.

Eighty-Nine Express Trains Required

This service requires the use of not less than eighty-nine express trains, starting at approximately the same hours from San Francisco, Chicago and New York every Saturday night.

Before the dawn of Sunday morning these eighty nine trains, tearing along through the night, have been multiplied by their various connections into several hundred.

It is a weekly demonstration of the possibilities of railroad transportation in this country of railroads which has never before been equalled in any country.

When this wonder of the magazine field was projected, at the time the Chicago American was established, the popular monthly and the illustrated Sunday paper stood facing each other on the frontier which marked the limitation of possibilities of both.

The Sunday paper was issued weekly and enjoyed this advantage of frequency. The popular magazine, on the other hand, had its extensive illustrative and literary features which were beyond the reach of the newspaper.

With the patronage of the three largest papers in their communities in America. Hearst's Sunday Magazine could enter markets closed to all except the most expensive and successful monthly magazines.

What the managers of the three Hearst newspapers saw was the possibility of circulating a fine weekly magazine to the combined readers of all three papers, reaching the whole country on the same day.

The plates for Hearst's Sunday Magazine are prepared in New York early enough to be shipped to Chicago and San Francisco for publication on the day of issue in New York.

Started with 1,000,000 Circulation

With the first issues of the Magazine its circulation was just a little under a million. That was while the Chicago American was still in its swaddling clothes and before it had overtaken and passed its strongest rivals, which it has since then left far in the rear.

Then it jumped to an even million every Sunday. This has been increased in the past year to 1,400,000. It has become a matter of press capacity and the organization of circulation facilities.

The demand for the Hearst–Sunday papers, stimulated largely by the acknow-ledged excellence of Hearst's Sunday Magazine, has grown beyond the present possibilities to comply. It became necessary to order from the Hoe factory, in addition to a battery of presses already far beyond anything ever before built, four new presses, each capable of printing Hearst's Sunday Magazine with its color features at the rate of 48,000 sixteen-page copies an hour.

These express presses are pronounced by R. Hoe & Co., to be the largest printing presses they have ever manufactured. They weigh more than 100 tons each.

The three Heavst papers consume every week, for their Sunday edition, considerably in excess of 1,000,000 pounds of paper. A quarter page advertisement in Heavst's Sunday Magazine, clipped from the whole issue, would weigh over one ton.

It did not take a long time for many advertisers to realize the value of such an advertising medium. It could not be classified with the ordinary Sunday papers. Its possibilities were seen to be far beyond those of any monthly or weekly periodical published. To figure on an advertising rate for such a circulation was a problem which vexed the eleverest advertising managers in the country. No newspaper had ever achieved such a circulation anywhere else in the world. No magazine has ever built up such a circulation.

Fixing on Advertising Rate

The rate was finally fixed at \$2.00 an agate line, which is fourteen-hundredths of one cent for one line for each thousand of circulation—the cheapest advertising known.

As to the efficacy of this advertising, it may be mentioned that one advertisement printed Easter has produced eight thousand replies.

It will be admitted by those versed in America's advertising media that it would require the most attractive sort of an advertisement in at least ten of the best Sunday newspapers in the country, and in at least five of the most widely circulated magazines, to produce anything like this number of answers.

The Sunday newspaper has grown to be by far the most important newspaper of the week, because it occupies the attention of the household on the most important day of the week. It is a day of thoughtful reckoning as well as a day of rest. Almost unconsciously the successes of the former week are gone over, and the plans of the week to come are considered. On that day the family council has full sway.

The earnings of the week are yet untouched on Sunday morning, and a feeling of comfort pervades the household. The receptive conditions exist then for the careful reading of an advertisement and a quick response as they do at no other time. The children with the comic section of the Sunday paper, the head of the family with the news section, the young women with the society and theatrical

features, and, more important still, the woman of the house interested in the artistic magazine section—all with the alert consciousness that each portion of the paper is fresh and new with the day—these are the things which give value to the advertising which is expressed in dollars and cents.

The dashing of the Hearst newspaper wagons along the streets of the three cities between the pressrooms and the railroad stations becomes bewildering. In New York alone it requires the occupancy of eleven buildings to produce the first link of Hearst's Sunday Magazine. One of the pressrooms is an arch of the great Brooklyn Bridge.

How the New York Trains are Handled

During Saturday night there are forty-seven trains leaving the various railroad stations in New York carrying the **American and Journal**. The railroad activity in connection with Hearst's Sunday Magazine begins with a Pennsylvania train leaving Jersey City at 6 o'clock Saturday evening. The last train at the New York end is a New Haven train leaving at 6:01 Sunday morning.

One of the forty-seven trains is train No. 8 on the New York & New Haven Road, the heaviest newspaper train in the world. At one time it consisted of thirteen solid cars of newspapers in one section. It now runs in two sections, seven cars in the first for Boston, via the Shore Line at 1:30 a. m., and five cars in the second, for Boston via Springfield, leaving at 2:35 a. m. These two sections carry forty-one men, whose sole work is to handle the papers.

At 3 o'clock Sunday morning there is a solid six-car special train out on the New York Central for Albany, Syracuse, Rochester. Buffalo and the West, the New York American and Journal being sold on the streets of Buffalo early in the day.

Train No. 77 on the Pennsylvania is another special mail and newspaper train, leaving at 2:10 in the morning. For several years it consisted of one car: with the advent of the New York American and Journal, it was increased until now it has six cars. It carries the American and Journal to Trenton, Philadelphia, Baltimore, Washington and the South.

Earlier in the evening special American and Journal cars leave on the Philadelphia & Reading, for Reading, Pottsville and all points in the anthracite region: on the New York Central. on the West Shore for Syracuse and connections. and special service on another Pennsylvania train for Norfolk, Newport News and points on the Virginia & North Carolina.

Leads New England Papers in Their Own Field

Before the special train leaves on the New Haven Road for Boston and New England points, ten tons of the Eastern end of Hearst's Sunday Magazine go by another train to catch an exclusive American and Journal train from Boston to Portland, Maine—a distance of 115 miles. This train covers the circulation east of Lowell. Mass. Another special run every Sunday morning exclusively for the American and Journal leaves Boston for Concord, Mass.

The whole of New England is covered by **Hearst's Sunday Magazine** circulation as it is by no paper or periodical published in New England. Its circulation through this section is far in excess of that of any Boston Sunday paper.

It covers the city of Philadelphia almost as well as any Philadelphia newspaper. Its circulation in the country surrounding both Boston and Philadelphia is greater than that of any paper published in either city—Aside from the trains mentioned out of New York, there is special service on trains on the Eric, Lackawanna, Ontario & Western, Susquehanna. Long Island—Harlem, Central of New Jersey and Long Branch Roads

Chicago's Maze of Express Trains

On Sunday morning the circulation of the New York American and Journal and the Chicago American meet at Buffalo. From 5:45 Saturday evening the activity rushes along between the American Pressrooms and the Chicago depots.

The Lake Shore trains carry the circulation eastward at 7:30 p. m. and 2:55 a. m., hurrying along to meet the New York Central trains leaving New York at about the same time.

Thirty-five trains carrying heavy shipments for the East leave over the Lake Shore, the Michigan Central, the Fort Wayne, Panhandle, Grand Trunk, B. & O. and Big Four—reaching a sweep of territory in time for Sunday reading extending from Indianapolis to Cincinnati, Columbus, Cleveland and Detroit.

The western journey is begun over the Burlington, the North-Western. the Rock Island and the Santa Fe. Trains hurry southward over the Illinois Central, the Eastern Illinois and Wabash, reaching Louisville and Nashville and even as far south as Meridian, Miss., in time for Sunday reading. For the North and the great Northwest trains leave over the Chicago. Milwaukee & St. Paul, the Wisconsin Central and the Great Western.

The territory covered, and thoroughly covered, includes Illinois, Indiana, Obio, Wisconsin, Michigan, Iowa, Minnesota, Nebraska, Kentucky, Texas, Kansas, Colorado and the neighboring portions of Canada.

The Chicago American stands with reference to Milwaukee, Detroit. Indianapolis, and even Omaha, in the same commanding position occupied by the New York American and Journal with reference to Boston and Philadelphia.

Up and Down the Slope and Inland

The pre-eminence of the **Sunday Examiner** in San Francisco extends all the way up and down the Pacific Coast, and as far east as Ogden and Denver. Three hours after the first trains leaving New York laden with the **Sunday American and Journal** have pulled out of the stations, the **Examiner** wagons are backing up in the railway stations of San Francisco.

The early Northern Pacific train starts for the stretch of coast to the northward, taking in Seattle and Portland. The Central Pacific and Union Pacific trains start to the eastward carrying the western link of **Hearst's Sunday Magazine** across the eastern portion of California and into adjoining States.

The Santa Fe and the Southern Pacific whirl off to the south, bound for southern California, Arizona and Mexico.

When it is remembered that these eighty-nine trains are in motion all within the same twenty-four hours, it may afford a better understanding of the statement that the continent is bridged completely by Hearst's Sunday Magazine—that advertisers are reaching the whole country in the compass of one day's newspaper—that the ratio of returns for the investment may confidently be expected to be in direct proportion to the immensity of the whole undertaking as compared with anything else in the publishing world.

THE NEW YORK AMERICAN

DAILY

has the largest circulation of any morning newspaper in the United States. It is a high-class interesting, trustworthy newspaper—thoroughly believed in by its readers, and hence is a good advertising medium. If it were possible for every advertiser to trace direct results, then the NEW YORK AMERICAN would be compelled to omit half of the advertising that would be offered it.

THE NEW YORK AMERICAN 🕮 JOURNAL

SUNDAY

Its supremacy in circulation is acknowledged by every newspaper publisher in the country. Its average circulation during the months of January, February, March, April, and up to this writing, has been over 800,000 a Sunday. It is one of the strongest advertising propositions in the world.

FOR OVER TEN YEARS

THE SAN FRANCISCO EXAMINER

Has been the only San Francisco morning paper which has published regularly every month a detailed sworn statement showing its NET PAID CIRCULATION. During the same period THE EXAMINER has been the only paper which has accorded advertisers the privilege of examining its circulation books. Many investigations have taken place from time to time, and every one has verified the circulation figures. For over five years THE EXAMINER has guaranteed a net paid circulation 30,000 greater than that of any other San Francisco paper.

It has the largest and finest Military Post in the United States, causing an annual expenditure of Government funds in the city of \$1.250,000 to \$1.500.000. It is a railroad centre, and the distributing point for all West and Southwest Texas. It is the gateway to Mexico, via the two principal lines of travel, and its merchants supply that republic with goods to the amount of many millions of dollars annually. It is the commercial centre of a territory larger than half a dozen of the largest States in the United States. Statement of circulation of the market in the world. It is the largest interior wool market in the United States.

ATLANTA NEWS

Sworn Circulation Average, April, 1903

18,535

COPIES PER DAY

The advent of THE NEWS, August 4, 1992, and the remarkable success it has achieved in less than one year has emphasized the triumph of the ONE CENT IDEA. THE NEWS is the pioneer in the penny afternoon field in the city of Atlanta and in the state of Georgia. It has broken down every obstacle confronting it and has won its way on merit alone. The field was ripe and ready and THE NEWS stepped in and filled it. How well it has done so is shown by the following figures on circulation, month by month:

August, 190211,205	January, 190315,049
September, 190212,014	February, 190316,709
October, 190212,890	March, 190317,918
November, 190213,504	April, 190318,535
December, 190214.601	May. 1903. (Estimated)20.000

Every objection urged against a new paper is swept away in case of THE NEWS, by the overwhelming endorsement of the big local advertisers. The following figures show a growth in April over March of seven columns, or one whole page every day. Such evidence of the popularity and value of the paper is at once conclusive and irresistible:

Burleigh & Flynt,

No paper in Maine stands higher in the estimation of its readers. It has their perfect confidence and thus is able to render the Highest Type of Service to Advertisers. It is one of the best edited papers in Maine. Uses the full night service of the Associated Press. Has daily local columns (and carrier delivery) in the cities of Augusta, Hallowell, Gardiner and Waterville. Radiating out of these four cities are fifty-four rural free delivery routes, each covering daily a distance of twenty miles. The Journal has one-half of the residents of these routes as subscribers.

In addition to its Daily, the KENNEBEC JOURNAL publishes a fine WEEKLY. This is a Newspaper and an Agricultural paper combined in sixteen large pages. It carries a good line of advertising and its patrons realize good results.

Calvert's Weirs Times and Tourists' Gazette

Is a handsome, eight-page, forty-eight column newspaper, published weekly during the season of summer travel. It is an indispensable requisite to tourists and sojourners in that section of the White Mountains. It contains information of arrival and departure of trains, steamboats and stages, as also heights of mountains and villages, distances to and from popular objects of interest to the various towns and villages in what is known as the White Mountain and lake region. The paper is printed on fine calendered book paper, and every issue contains a comprehensive map of the lake, which has been greatly improved this season and which alone is worth many times the cost of the paper to those who visit this beautiful region. It also gives much valuable and statistical information in regard to the lake and its surroundings.

The Bangor, Maine COMMERCIAL

(DAILY AND WEEKLY)

THE LEADING DAILY AND WEEKLY IN MAINE. Average Print for 1902: Daily, 7,846; Weekly, 29,012.

"COVERS ITS TERRITORY LIKE THE PROVERBIAL BLANKET."—PRINTERS' INK.

The Weekly Commercial is an agricultural and news weekly; has twice as large a circulation as the paper having the next highest in the state; circulation within the state, exclusive of that outside, exceeds 27,000 all paid subscribers.

Printers' Ink aptly stated the truth when it said of the Weekly Commercial: "It covers its territory like the proverbial blanket."

The Weekly Commercial was awarded the prize of the Fifth Sugar Bowl by Printers' Ink, Jan. 16, 1901, "having been pronounced after over eight months careful weighing of evidence, the one which gives an advertiser best service, in proportion to the price charged, among all the weeklies in the United States."

As an agricultural paper it takes front rank.

B. Walker McKeen, for many years Secretary of the State of Maine Agricultural Department, in a letter to the publishers of the Commercial says: "Your paper is recognized by the farmers of this state as the leading agricultural weekly published in Maine."

Original post office receipts sent to any advertiser on request.

The Daily Commercial covers the cities and large towns as thoroughly as the Weekly does the country districts.

No other daily paper has as large an actual circulation in this field as the Daily (Evening) Commercial.

The Bangor Commercial (Daily and Weekly), covers two-thirds of the area of the whole state.

SOMETHING

NEW

FOR

THE

YEAR

What is an "AUTOPLATE"?

A 20th century invention for making heavy curved stereotype page printing plates. It turns out four a minute. A marvellous mechanism.

What does it cost?

\$25,000. Our additional cost to install \$10,000.

What newspapers need it?

Only those with enormous circulations, running many presses, and requiring many duplicates of printing plates.

How many duplicate plates of each page does the BOSTON POST regularly use?

TEN—sometimes TWELVE. No other morning or evening newspaper in New England uses over SIX. This fact is significant if you are after circulation and results.

What newspapers are now equipped with Autoplates?

Only four in the whole world—the New York Herald, the New York World, the Chicago Tribune and the BOSTON POST.

REAL advertising is that which SELLS GOODS FOR ADVERTISERS.

If all newspapers paid advertisers in exact proportion to their claimed (or known) circulation the making up of a list of papers would be a simple matter. Any boy of sixteen could do the work with the aid of a reliable newspaper directory.

But it is a known fact that some papers pay advertisers vastly better than others of larger circulation in the same field. A knowledge, therefore, of the "goods-selling" power of the papers is very essential.

Experienced advertisers say that papers which hold the respect and confidence of their readers give better returns than papers of the flashy, sensational sort.

Since all newspaper readers must know that the advertisements are the announcements of the advertisers and do not, necessarily, have the indorsement of the newspaper, it cannot well be analyzed why this should be so. Yet it is so,

It may be that it is akin to hearing an article favorably spoken of in the home of some person in whom the hearer has confidence. It would certainly have more weight than as if the same statement was heard upon the street or in the home of a person whom the hearer did not hold in especial esteem.

THE EVENING GAZETTE OF WORCESTER, MASS.

is a good example of a paper which carries more advertising than other papers in its field claiming more circulation. The reading columns of this paper are bright and newsy, yet clean in character. Generous space is given to local social news. Its advertising columns are free from objectionable advertisements.

The GAZETTE has the reputation among the Worcester merchants of producing direct sales.

If the general advertiser could watch results as closely as the local dealer, no general advertiser would omit the Gazette from its New England list.

THE REPUBLICAN is essentially a home paper—clean cut, forceful and influential. The excellence of its news and literary service has made it a daily of power in the city, state and national affairs. Its circulation does not cease with the confines of its own city. It circulates in many Massachusetts towns and cities, and wherever it is read, it is read with deliberation and respect. And where a daily is read with respect isn't it reasonable to suppose it brings results to the advertiser?—Newspaperdom, Nov. 13, 1902.

City of Pawtucket, County of Providence, State of Rhode Island: Subscribed and sworn to before me this 1st day of April, 1903.

JAMES L. JENKS, Notary Public.

Circulation Books Open to Advertisers. Investigation Invited.

The TIMES has been examined by the Association of American Advertisers and holds a certificate issued by this Association crediting the TIMES with a daily average of 15,543 copies for 1902, according to their definition of circulation.

The definition of circulation adopted by this Association is "The number of copies actually distributed during the year, excluding all returned copies and waste."

The above statement shows a substantial increase over previous reports.

Population of Pawtucket, 45,000. Pawtucket and the adjoining city of Central Falls have a combined population of 66,000. The total circulation area of the TLMES represents a population above 13,000. The field covered almost exclusively by the TLMES is an important manufacturing center, noted for the size, prosperity and diversity of its industries. The TLMES reaches the whole people of northern Rhode Island and hordering towns in Massachusetts. The sessentially a family paper, clean and newsy, and is popular with all classes. The representation in its columns of the largest and most successful business houses and progressive general advertisers, is convincing evidence of its value as a profitable advertising medium.

THE TIMES IS A PENNY PAPER, 10 TO 20 PAGES.

The Brooklyn Citizen

Fulton, Adams and Willoughby Streets, New York City.

BOROUGH OF BROOKLYN.

A Progressive and Popular Paper of Greater New York.

Daily Afternoon Edition, 12 to 14 Pages, 2 Cents Sunday Morning Edition, 24 to 32 Pages, 3 Cents

Essentially a Newspaper—The Brooklyn Daily Citizen is now in its seventeenth year. It is essentially a newspaper for the home circle. While distinguished for enterprise, care has been taken from the beginning of its career to admit nothing to its columns that would offend the moral sense of self respecting people.

ĠĠĠĠĠĠĠĠĠĠĠĠĠĠĠĠĠĠĠĠĠĠĠĠĠĠĠĠĠ

Politics—In politics it is Democratic, but its Democracy has never prevented it from condemning evil in Democrats, or upholding men of other parties who did right. It is the organ of citizens, irrespective of party, who make the public well-being their first consideration.

Educational Affairs—The attention which it gives educational affairs has secured for it a practical monopoly of the favor of nearly three thousand teachers in the public schools.

Public Movements—Similarly, the admirable manner in which it has caused the various public movements in which ladies have been engaged to be reported, has made it the chief medium of news for the refined, social, benevolent and fashionable life of Brooklyn.

Advertisers—The people, whom it is the object of nearly all important advertisers to reach, are precisely those who read The Citizen. Its appeal is wholly to what is virtuous, honest, self-supporting and thoughtful in the community.

Enormously Successful—The Citizen has been enormously successful. It owns the splendid building in which it is housed, and which is the most valuable piece of business property in the city.

The Equipment—The equipment of The CITIZEN is complete and up-to-date in all respects. Its composing room is filled with typesetting machines of the latest pattern; its pressroom is adorned with specimens of the skill of the Hoes, of New York, and the Goss Company, of Chicago.

ESTABLISHED 1894.

With Which is Consolidated "American Golf."

STABLISHED in 1894, the oldest Golf Publication in America, and the official organ of the various golf associations of this country. Because of the number and class of its readers, **THE GOLFER** furnishes a profitable medium for general advertising.

"The Best Circulation is that which combines both quality and quantity."

This is just what an advertiser obtains in **THE GOLFER**, with the desirable addition of a comparatively low rate.

Advertise in **THE GOLFER** and with this single publication you reach in the most direct and least expensive manner, the golf-playing public of America.

REASONS

WHY THE

ALBANY EVENING FOURNAL, ALBANY, N. Y.

Should be used in preference to any other newspaper published in that city or vicinity

BECAUSE it has the largest legitimate circulation.

BECAUSE it reaches the homes by its own carriers direct from the office, and is the only evening paper in Albany that serves its subscribers direct and does not rely upon street sales for its circulation.

BECAUSE it is the only Republican Newspaper published in Albany County, and both the city and county are Republican in politics.

BECAUSE the three other newspapers in Albany divide the Democratic readers into thirds, while the Journal reaches all Republican families in the city—and they are in the majority—and a good share of independent Democrats.

BECAUSE it is the Greatest One Cent Newspaper published in Eastern New York.

BECAUSE it brings returns to advertisers and gives the best satisfaction.

BECAUSE you must use it to get results from Albany or vicinity.

THE TROY PRESS

HAS a commanding circulation, excelling by thousands any of its competitors. It is read by all sorts of people, but more universally in the homes of the great middle class, which forms the backbone of the purchasing public. Its local advertising patronage is the largest, and the leading merchants of Troy freely acknowledge that the benefits accruing from THE PRESS transcend those from any other medium. It is a COMPLETE NEWSPAPER, with miscellaneous and unique features, pictorial and others, to enhance its sales, and every department is carefully edited. In brief THE TROY PRESS speaks for itself, and any trained advertiser will discern its character and evident prosperity by scrutinizing its pages. Convenient in form, neatly printed, and habitually giving the fullest and freshest news, it challenges comparison and invites the attention of all up-todate advertisers in legitimate lines of trade.

No liquor advertisements were accepted and the magazine now refuses all mining stock advertisements of whatever nature, and all oil company advertisements.

This extraordinary patronage is not gained on the basis of the magazine's looks, as the necessity of manufacturing a great edition of the most "timely" magazine in the world, precludes ornamental work. It took some advertisers a long time to understand this.

are secured to the advertiser through the service of

The Advertising Plate Company

of New York and Chicago. Every large user of newspaper space should investigate and understand the advantages offered by this service, as it wonderfully simplifies the matter of printing from plates, and insures a large saving of both time and money.

That all claims made for this service are substantiated, to the entire satisfaction of its users, is proven by the fact that The Advertising Plate Company has never lost a customer.

The main offices of the company are in the Postal Telegraph Building, New York City. The Western contracting office is at 71 and 73 West Adams Street, Chicago. The Company's foundries are located in New York, Chicago, Kansas City, San Francisco, Dallas and Atlanta. Each foundry is fully equipped with patterns for casting every line of plates, and all orders are filled at the foundries nearest destination, thus insuring to customers economy in transportation, irrespective of the size of the order—whether for one plate or a thousand.

All information necessary to a full understanding of the methods, cost and many advantages of the service, will be promptly and cheerfully furnished on application to either the New York or Chicago office. It will amply repay advertisers to correspond with

celebrated its Golden Jubilee by publishing the greatest Anniversary Number that was ever published in the United States—It was not only the greatest in size, but the finest printed paper ever issued for one cent. This number speaks louder than words can tell in what estimation the paper is held in its own community and by its readers.

THE WAECHTER UND ANZEIGER was established in 1852. It is the only German daily in Cleveland and Northern Ohio. It has more Circulation than any other German paper east of Chicago or west of New York. It circulates in a county having more than 60,000 population and the city more than 400,000, more than 40 per cent of this population being German. The Waechter und Anzeiger reaches them all. The readers are well-to-do people that like the news in their own language. The paper has no street sale, it is a family newspaper, clean in its news columns and honest in its politics. It is a paying medium for houset advertising. There is no other way to reach the German people of Northern Ohio; the Waechter and Anzeiger does the work and does it well at low rates.

Testimony of Sandusky Merchants and General Advertisers.

Sandusky, O., January 23, 1903.

We always use the columns of the REGISTER liberally because we have tried and know its value as a profitable medium. Its leading and widely distributed circulation among all classes; its long established reputation and influence in the community; its exclusive field in the city and surrounding towns as the morning paper, and the enterprise with which it is managed, all make it in our judgment an indispensable medium for Sandusky and vicinity.

SIGNED BY 17 LEADING SANDUSKY MERCHANTS.

To The Publishers of the Register:

I take great pleasura in acknowledgine, from my experienc with most every paper of note from Maine to Texas, that THE SANDUSKY REGISTER is the very best advertising medium in any town of the same size that I have ever advertised with.

The SOUTHERN INDIANA TRIBUNE is read by more people, goes into more homes and is talked of more for its fearless, independent manner of handling the news than all other Warrick county papers combined. We have placed our subscription price at 50 cents per year in order to double our already large circulation, while the other weeklies are still asking a dollar. The TRIBUNE readers are among the better class of people—those that buy and buy the best. We not only go into the homes, but make our columns so newsy that we are read around the family fireside.

Our advertising rates are low, compared to the amount of good we can do the advertisers, and once we secure a foreign advertiser we generally keep him on our list as long as he has anything to sell.

ADVERTISING RATES:

One inch, per year \$5.00; two inches, one year, \$9.00; three inches, \$12.00; six inches, \$18.00. Local reading matter, less than twelve lines, per line each issue, three cents; over twelve lines and less than thirty, two cents per line; more than thirty lines each issue, a rate of one cent per line will be charged. A discount of fifty per cent. from these prices will be allowed on yearly contracts.

If you have anything to sell and want to reach the buying class of Southern Indiana, you will be able to find them by the use of our columns. Let us hear from you.

"THE MIDDLE WEST"

AN UNEQUALLED FIELD

HE territory covered by the Chicago Newspaper Union Lists is best described by the term the Middle West. All over this fertile land prosperous cities and towns are found in which diversified manufacturing industries are established, affording employment for millions of operatives and comfortable support for their families. These lists are published and read in the great States of Ohio, Indiana, Michigan, Illinois, Wisconsin, Iowa, Nebraska and South Dakota. We have confined our field of operation to those States wherein the co-operative plan is used by the best class of papers, and circulation per paper is the largest. For this reason, and in view of the high average in means and intelligence of the readers of these papers, and their standing as to influence and circulation, we feel convinced that our lists are entitled to special consideration from advertisers.

Topeka, Kansas, Season 1902-3.

TO ADVERTISERS-

On August 1, 1902, the KANSAS FARMER'S advertising columns were opened for orders on a net flat basis—a new departure in agricultural advertising. Several months' experience has demonstrated the wisdom of this system. It means the acceptance of an order strictly upon its merits as a business proposition. If it pays, you stay, otherwise you go without incurring much expense.

proposition. If it pays, you stay, otherwise you go without incurring much expense.

Our rate is low for the service we give. You can advertise in the KANSAS FARMER continuously with the assurance of profitable returns. KANSAS FARMER readers believe in the paper and rely on its advertisers.

ADVERTISING RATES:

For all advertising orders less than 100 lines space, one time, every other week or once a month orders, and all others requiring special position, the rate per agate line is 15c (\$2.10 per inch per week). For all continuous orders in excess of 100 lines, taking the run of the paper or as classified advertising the rate is 110 per agate line (\$1.51 at per inch per week).

tising, the rate is 110 per agate line (\$1.54 per inch per week).

Electros must have metal bases. Advertising forms close every Tuesday noon. Every advertiser receives a copy of the paper free during the publication of the advertisement.

A discount of 5 per cent for cash with order.

OUR TERRITORY.

The KANSAS FARMER is the only weekly agricultural journal which thoroughly covers what is known as the "Kansas City territory," comprising Kausas, Western Missouri, Oklahoma and the new States of the Southwest.

CITY AND COUNTY OFFICIAL PAPER

Circulation of the Daily Journal over 4,000 Copies

[Report of City Council Committee—Messrs. Blanchard, Bowen and Walker—upon circulation of Los Angeles Duily Journal, Sept. 23, 1902.]

Referring to the circulation of the LOS ANGELES DAILY JOURNAL regarding the requirement of the City Advertising contract that the Official Paper shall have at least a circulation of three thousand copies, we, your Committee, beg to report that we have just completed a searching and rigid examination of the circulation books, route books, mail lists, newspaper postage and press rooms of the said LOS ANGELES DAILY JOURNAL, and find that said paper is printing daily over four thousand copies, and we are satisfied that the contract requirement of at least three thousand copies daily is more than exceeded by said Daily Journal Company.—[Report in open Council by Chairman Blanchard.]

can be most effectively reached by the magazine most devoted to matters vital to Westerners.

OUT WEST

In authoritativeness, literary standing and advertising patronage is not only the most important magazine published in the western half of the U. S. but it is so distinctly different from any other magazine that it has a distinct place in the attention of readers every where. It offers the greatest circulation and literary standing and the lowest adv. rate of any Pacific Coast Magazine, and because of being devoted to matters vital to people here, an effectiveness on the Pacific Costs superior to that of any magazine of more general character. Adv. rates \$30.00 a page, or pro rata, for less, or \$25.00 for more than three pages during 12 months. Pages standard size. Forms close 6th to 15th of preceding month. Address,

IN SAN DIEGO, CALIFORNIA, (The center of the World's Greatest Lemon District), there's ONLY ONE morning newspaper (and in Pacific Coast cities the morning field is the BIG field, without exception.) That's the

SAN DIEGO UNION

(The oldest newspaper in all Southern California—yet up-to-date in every particular—including full associated press reports, the latest mechanical equipment and a new fire-proof home of its own.) The 40,000 residents of San Diego, (city and county, depend entirely on the UNION for their morning telegraphic and local news, as no other morning paper is published within a radius of 125 miles.) It brings results to advertisers every time. For rates, etc., see

VREELAND=BENJAMIN AGENCY, 150 Nassau Street, NEW YORK Tribune Building, CHICAGO

TACOMA, WASHINGTON

Has a population of more than 60,000 people. A larger percentage of these people read The Daily Ledger, than any other paper printed or circulated in the Tacoma field. The Sunday Ledger prints more news and special features, contains more pages, carries more advertising and is read by more people, than any other newspaper printed or circulated in its field. The Sunday Ledger of December 21, 1902, carried more columns of paid advertising than any daily newspaper published in the states of Washington, Oregon, Idaho and Montana during December. It was not a special edition either.

The 1993 cut of Tacoma lumber mills exceeded 303,000,000 feet, besides 350,000,000 shingles. Bank clearances for the year exceeded \$75,000,000. Tacoma has 381 establishments employing 7,878 wage earners, with a monthly pay roll of over \$500,000. Ocean commerce for 1902 passed the \$10,000,000 mark. More than \$250,000 worth of street paying is under way for 1903. Tacoma leads all other cities in the state in the point of lumber cut, shingles manufactured, coal mined, and wheat and flour shipped.

THE TACOMA LEDGER

prints the full associated press reports, has correspondents in every news center in the state, and sends its daily and Sunday editions to every town and city in western Washington.

The average daily circulation, exclusive of Sunday, for October, November and December, 1902, was 12,176. Sunday edition, same period was \$15,397 copies. Weekly edition, 8,151 copies.

THE FREE PRESS,

STREATOR, ILLS.

Two things enter into the consideration when selecting an advertising medium. The one is the quality of the paper, its pulling power, and the other the place where published.

Streator is an important industrial and railroad center surrounded by a splendid farming community. It has an actual population of 17,500. It has seven railroads and is the center of rich coal fields, which are well developed. It has the largest bottle factory in the world; produces window glass in large quantities; sewer pipe and building and paving brick works on a large scale, besides numerous smaller industries.

The Free Press covers this field thoroughly, both city and country. this territory without using its columns. It is the paper of the people. The one in which they trust and on which they rely. Daily circulation 1,475; weekly 2,750.

THE WATERBURY DEMOCRAT

BEST ADVERTISING MEDIUM AND ONLY DEMOCRATIC DAILY PAPER IN THE NAUGATUCK VALLEY....

THE PEOPLE'S PAPER—2 CENTS A COPY.

The Democrat is not in the habit of blowing or bragging about it's circulation, for the reason that it has not in recent years found it necessary. up-to-date merchants and business men have long since learned that it is at least as good an advertising medium as any in the city, and many of them have no hesitation in pronouncing it the very best. If we didn't have the circulation this would not be so. The Democrat still maintains its claim to fully as many readers in the city as any other paper published here. In the outlying districts our circulation may not be so large. For the benefit of advertisers and a few doubting Thomases we present the following sworn statement for three months, ending Saturday, April 11.

Average for 3 months,	4,851

State of Connecticut, County of New Haven, ss. Waterbury.

I, Cornelius Maloney of Waterbury, New Haven county, Connecticut, proprietor of the Waterbury Evening Democrat, being duly sworn do depose and say as follows:

The average daily circulation of the said Waterbury Evening Democrat from January 12, 1903, to the present time was as follows: For January, 4,485; for February, 4,779; for March, 4,998; and for April 5,144. A daily average circulation of 4,851½.

GUNTON'S MAGAZINE

IS WORTH THE CAREFUL ATTENTION OF EVERY LIVE ADVERTISER.

WHY?

BECAUSE its circulation is rapidly increasing.

BECAUSE it reaches an exceptionally fine class of well-to-do people, the kind who can and do buy high-class goods, both for their business offices and for their homes; in fact, just the people to whom high-grade advertising appeals; and GUNTON'S does not want any other kind of advertising and will not take it. Wise advertisers are more and more coming to realize the value of QUALITY of circulation, and that is why GUNTON'S is placing new advertising of the best kind every month.

BECAUSE it is sold at only One Dollar a year, Ten Cents a copy—admittedly an unprecedented price for a Magazine of its class and quality.

BECAUSE it is steadily growing in interest and improving in appearance.

BECAUSE advertisers can be sure of artistic treatment of their copy, the best possible display, and **GOOD COMPANY.**

BECAUSE the rates are RIGHT.

Haven't we given enough reasons for you just to send an inquiry and let us tell you what "Right Rates" mean—and other particulars?

CIRCULATION IN SAINT JOSEPH GUARANTEED LARGER THAN ANY OTHER PAPER.

Saint Joseph is a city of 110,000 population, conservative but enterprising to a degree. The old-time lack of public spirit is no more, and the city is fast modernizing itself by progressive methods. A superb system of interurban street railway lines thread the city's thoroughfares like a mesh. The immense cattle and packing interests give employment to 15,000 men alone! The city is playing to no galleries, but doing the square thing by itself in the way of hustling.

This tells the story, and

THE EVENING PRESS

does not merely assert, but Guarantees a circulation in Saint Joseph Thousands larger than any other newspaper in the city.

ESTABLISHED 1223

THE BALTIMORE AMERICAN

In Baltimore it's the American. In Maryland, Delaware, Northern

Virginia and West Virginia it's the Baltimore American.

It was long ago demonstrated to the experienced advertiser that it was impossible to cover the States named without the Baltimore American. The lesson learned then is remembered to-day, and in selecting his mediums for these States the advertiser for profits invariably puts the Baltimore American at the head of the list. Why? Because he knows the results sought cannot be secured without it.

The Baltimore American goes into more homes, is read by more people, and wields a more potent influence than any other newspaper pub-

lished south of Mason & Dixon's line.

HERE IS THE PROOF

The Baltimore American is the only newspaper published in Maryland, Delaware, Northern Virginia or West Virginia, which presents sworn detailed statements of its circulation. Its sworn statement for 1902 shows an actual daily average of 65.554 copies, or tens of thousands of copies daily more than is claimed by any other newspaper published south of Mason & Dixon's line.

The affidavit is proof of the Baltimore American's leadership as to

circulation.

In the year 1902, the Baltimore American printed more than 5,250,000 agate lines of paid advertisements, or a million lines more

than were printed by any of its rivals.

There is not a single local or general advertiser who, since 1773, has sought business in this section who has not used the **Baltimore** American, and its patrons in 1902 included those of all its rivals. The patronage is proof of the advertisers' regard for the **Baltimore** American. Experience has proved that it brings results.

AN EXCEPTIONAL ADVERTISING MEDIUM

RAND RAPIDS, MICH., is the best town throughout the central states in which to introduce new proprietary or food products. This is due largely to the great and continued prosperity of its world renowned furniture factories. Another important factor is the business education of its people. The latter applies very closely to the advertising business. The time required to sell a certain amount of goods depends upon the conditions and education of the customers. The education comes from the daily newspaper, and the one important point of this market is its great educator—The Evening Press, which is known to all prominent advertisers by the unique position it occupies in the advertising field.

The Evening Press has had a phenomenal growth. We have watched its circulation grow from 7,000 to the present 35,000 mark, and during this time we have used its columns for a varied class of advertising business. Furthermore, we have yet to find an evening newspaper, which, with a like appropriation will sell as many goods in their particular field. It covers the territory more closely than any newspaper we know of in cities of 100,000 population or more. It circulates 20,000 papers in Grand Rapids, which is about one to every house, and with the rural and interurban routes, 15,000 subscribers have been added to the city circulation within a radius of 150 miles of Grand Rapids. We will gladly vouch for its circulation, its character and its value as an advertising medium.

CHICAGO JOURNAL

RALPH H. BOOTH, EDITOR AND PUBLISHER

PUBLISHER'S ANNOUNCEMENT.

To the Public: -

For fifty-nine consecutive years the CHICAGO JOURNAL has been an institution of Chicago. It has a large circulation within the city limits, in adjoining suburbs, and through the great Northwest, being taken for the reliability of its news columns, local, telegraph and cable, for the excellence of its literary, art and dramatic features; for the sound logic of its editorials and the apparent fact that it contains only such news and feature matter as is fit to be read in the homes. Its financial and commercial pages, with exhaustive market reports, are famously authoritative: its society columns are the best in Chicago, while its sporting page is not equaled by any other Chicago paper. It does not pervert and distort the NEWS of the day in order to create a sensation and in that manner misinform its readers. It does not publish "fake" pictures for the catch-penny purpose of filling its columns and embellishing its pages. It prefers to cater to the sober, intelligent people and give them reading matter that will enlighten and inform them. That this policy pays is shown by the steady increase of its constant readers--not a rapid, unhealthy growth, but a continuous one that is most gratifying.

Very truly yours,

Dear Sir: -

A few words with you about special representation in the general adv. field. That we are known by the company we keep is as true of newspapers as individuals. You would not associate with inferior men and it is reasonable to presume you would not wish your newspaper associated with any but the best.

My plan of newspaper representation contemplates a list of the very best and choicest Dailies in New England, outside Boston, every one conspicuous for its strength, high character, and the value of its field. No weaklings nor second rate publications admitted.

The list appears above and at present comprises the leading Dailies in five of New England's largest and most important business centres--you will recognize its splendid character and appreciate the advantage of association with these newspapers of the very highest repute. I seek and expect to interest only those few remaining New England Dailies of a character and value corresponding with that of these present members of the list. If yours is one of this kind I can offer you advantages that I believe are not equalled by any other form of special representation so far undertaken. Write me.

Yours very truly,

L. E. PULLEN.

Mr. Edgar W. Coleman, Publisher Milwaukee Herold,

Dear Sir:—

We beg to acknowledge receipt of your little gem, entitled "A Thunderbolt Out of a Clear Sky", which is a very appropriate title. We are about to close our offices in the city of Milwaukee, and our half-page advertisement in your issue of March 20th will be the last to appear in your paper, as the allotment of stock for this city has been disposed of. We desire to say that the RESULTS from advertising in the Milwaukee Herold are better by far than all of the English papers COMBINED. After having figured results, we find that The Herold stands at the head of the list and gave us three to one as compared with ALL Milwaukee newspapers.

ALL Milwaukee newspapers.
Yours very truly,

The German-, Polish- and Bohemianborn population, as shown in the above table is 72 606. Foreign-born nopulation is almost entirely adult, and should be divided by two to get the number of possible subscribers to a German newspaper, namely 36,303

Assuming, for the sake of argument. that all foreign-born of other nationalities and all native-born of foreign parentage read English newspapers exclusively, which latter, however, the HEROLD does not concede, there remain, deducting 72,606 from the total population 285,315 - 212,709 men, women and children, or [divided by five] 42,542 families to be supplied by the five English papers in Milwaukee.

It is, however, but fair to state that there are two Polish papers which have a certain circulation among the Polish population.

[Signed] J. W. HAYS, Business Manager.

Subscribed and sworn to before me by J. W. Hays, Business Manager of the Commercial Appeal, this 4th day of April, 1903. [Seal] F. M. GUTHRIE, Notary Public.

A FEW FACTS OF INTEREST TO ADVERTISERS ABOUT MEMPHIS AND THE COMMERCIAL APPEAL

EMPHIS, with a population of over 125,000 people, is the center of the most fertile agricultural country in the United States, and does an immense furnishing business in Tennessee, Alabama, Mississippi and Arkansas. It has 850 manufacturing enterprises. It is the largest inland cotton market in the world; the largest hardwood lumber market in the world; and manufactures more cotton seed products than any other city in the world. It is the third city in the South in point of population. It is the railroad center of the South with 11 competing lines, and on the great Mississippi river. Through the COMMERCIAL APPEAL the general advertiser reaches nearly every family in the city of Memphis, which has a population of more than 125,000 people. The COMMERCIAL APPEAL also thoroughly covers the towns within a radius of 150 miles of Memphis. The COMMERCIAL APPEAL, exclusive of the Weekly, uses for its paid circulation over three times more white paper than all other Memphis publications combined. The records of the post office show that for the year 1902 there were thirty-two publications entered under second-class postal regulations, and the total amount paid by the thirty-two publications was \$16.373.86, of which the COMMERCIAL APPEAL paid \$12,730.43, for which it holds the post office receipts, leaving a balance paid by the other thirty-one publications of \$3,653.43. The COMMERCIAL APPEAL has 75 per cent more paid city circulation and three times more paid out of-town circulation than any other Memphis paper. The COMMERCIAL APPEAL has more paid city circulation than all other Memphis daily papers combined. The COMMERCIAL APPEAL used and paid for during March 1903, for the white paper for its circulation, \$9,091.43 which is as great as the total operative expense of any other Memphis newspaper.

THE METHODISTS

The Great Methodist Fund

EEEEEEEE

HE Methodist Church has collected more than twenty million dollars as its "Twentieth Century Fund," and the Methodist Church, South, more than one million. Nothing like this was ever before done in the whole history of Protestant Christianity. It shows the strong hold that this well-organized and zealous Church has on its members. The main body of the Church has nearly three million communicants in the United States, and the Methodist Church, South, has nearly a million and a half (exclusive of the colored and other lesser branches of the followers of Wesley, which number nearly a million and a half more, making a grand total of nearly six million communicants). This twenty-million-dollarfund, therefore, represents a payment of an average of nearly seven dollars for every communicant of the main body of the Church. More than eight millions are for educational purposes, which shows how broad and practical a view is taken by the Church of its obligations to society; nine millions go to cancelling church debts; and most of the balance to philanthropies and charities. No thoughtful man would measure a Church by a money standard; but no Church that shows such financial zeal as this is in danger of losing its hold on the people.—Collier's Weekly.

This great achievement was due mainly to the publicity and cooperation given by "THE METHODIST" press, which is the Hand Book of Methodism. None but the choicest and most reliable advertisements are admitted. The readers appreciate this.

PENNSYLVANIA'S GOLD MINE FOR ADVERTISERS

The Philadelphia Record

THE PIONEER ONE CENT NEWSPAPER OF AMERICA

Newspaper advertising to be effective must be done through a medium that is respected. THE RECORD is a newspaper of character and represents all that is best in American journalism.

There is a business vein running through its advertising columns which yields immense returns; in fact, gives the Best Results to advertisers in proportion to the price charged of all newspapers east of Chicago.

IMPORTANT FACTS

Philadelphia is one of the most prosperous municipalities in the United States—a city where people own their own homes and buy the best of everything. Its population is over 1,500,000.

THE PHILADELPHIA RECORD is the leading paper of this great city. It has a larger paid circulation than any newspaper in Pennsylvania, delivered to the homes by its own carriers. More than this, with its immense daily and Sunday circulation, it carries the announcements of its advertisers to thousands of families throughout the entire Middle State district.

The territory wherein THE RECORD is the strongest is Pennsylvania, New Jersey, Delaware, Maryland, Virginia and West Virginia. In most of them its circulation exceeds that of any local paper.

THE RECORD prints regularly more department store advertising than any other newspaper in the world.

For the last ten years it has carried more display advertising every day (by many thousand lines), than any paper in Pennsylvania.

Foreign advertisers entering this field invariably place THE RECORD first on their list, because it has proven its value to so many others.

The Troy (N. Y.) Situation.

(From Newspaperdom February 19, 1903.)

The newspapers of Albany and Troy had a prosperous year of it. The Sunday papers, with one or two exceptions, fared particularly well, and especially so for the four Sundays previous to Christmas. One most interesting feature of the Albany and Troy newspaper situation is that the Troy Northern Budget carried a greater total of agate lines than did the Sunday papers of Albany, notwithstanding the fact that Albany has 95,000 citizens against 61,000 for Troy. This table will show to better advantage how the Budget, Argus and Press really did stand as regards totals of advertising carried on the following dates:

The Troy Northern Budget is a newspaper of power in its extended field, and is to its constituency what the Boston Globe is to Boston; the Chicago Tribune to Chicago; the Philadelphia Record to Philadelphia, etc. It was founded in 1797 and is therefore one of the oldest newspapers of northern New York. For these many years it has been regarded as one of New York State's best business bringing advertising mediums. Conducted entirely upon legitimate business lines, it has carried the respect of its readers in all its ideas and campaigns.

THE LEADING FEATURES.

Trotting and racing news of the world; yachting news up-to-date; everything of interest to the automobilist, with fine illustrations of the leading machines on both sides of the Atlantic. Paul Sandowski's clever caricatures of prominent men, including bankers, railroad presidents, prominent menubers of the New York Stock Exchange, leading financiers, politicians, lawyers and all other professions. It is devoted to high-class sports and may well be called the American Gentleman's Newspaper. A single copy would be cheap at 50 cents, even \$1.00 would not be \$4.00. THE TIME ITELD AND FALM is abalished in 1465, was recently purchased by the SPORTS OF THE TIMES and consolidated with that paper.

Savannah is one of the great commercial cities of the country, and the outlet for the products of half of the South Atlantic States. It is the second cotton port, and the largest naval stores port in the world, and is also an important lumber and rice port. It is the center of the wealth, culture and business of two States. Its growth during the past few years has equaled the extraordinary records of cities in the Northwest. The MORNING NEWS is the only morning paper; it has no competitor in its territory, and reaches every business man and every comfortable home in Savannah, and fifty surrounding counties. It was established in 1850. It is one of the four or five really great and influential papers of the whole South.

CIRCULATION 1,020

No one can deny that an Advertisement in

THE FAYETTE REPUBLICAN

HAS TRUE WORTH.

Regular advertisements inserted at the rate of 20 cents per linear inch. Transient advertisements \$1.00 per inch for the first insertion and 50 cents per inch for each subsequent insertion. We have over 15,000 readers and not only cover the county of Fayette thoroughly but all adjoining counties as well. THE FAYETTE REPUBLICAN, is published at Connellsville, Pa., and contains twelve pages of live, interesting matter, such as the people want. The list is now increasing at the rate of from fifty to one hundred new names each week. The paper is published every Friday morning at the low price of \$1.00 per year in advance.

ASK

THE BUSINESS MEN which paper in COLORADO SPRINGS has the BEST and LARGEST CIRCULATION. They'll say

THE TELEGRAPH

OF COURSE

HERE IS THE REASON.

Since the sale of the Denver Times and the Colorado Springs Gazette to the Democratic interests, THE TELEGRAPH becomes the only Evening Republican Paper in Colorado taking the associated press reports and the only Republican daily in El Paso County. The vote cast in El Paso County at the November election, 1902, was as follows: REPUBLICAN, 6,978; Democratic, 3,884; Other Parties, 1,070.

THE TELEGRAPH with its full Associated Press Reports, Special Financial Reports, Stock and Bond Sales, an Unsurpassed Local and State News Service, and a corps of Special Writers makes it essentially the paper for all classes of newspaper readers.

PROSPERITY IN COLORADO SPRINGS.

At the close of business March 1, 1903, the five banks of this city, and one in Colorado City, adjoining, had \$11,027,324.60 to the credit of local individual depositors. This record is unequalled in any other community in the United States, having a population of 30,000. Colorado City and Manition, 11,000. The circulation of the TELEGRAPH is now larger than the circulation of any other daily paper printed in Colorado outside of Denver. Sworn average daily circulation during 1902—was 8,844.

IT IS WELL TO KNOW

that between the months of May and October from 30,000 to 50,000 additional people make their home in Colorado Springs. It is the most popular mountain resort and tourist center in Colorado.

FARM AND FIRESIDE

Circulation Exceeds 310,000 CHEAPEST IN WHICH TO ADVERTISE

Because the best. It has not reached the first place in the list of America's agricultural press by accident. The 310,000 farmers who buy and read it twice every month in the year made that possible. The Farm and Fireside is an agricultural paper of the modern type, giving live news to the farmer and his household. Every issue, therefore, carries an influence and confidence not to be over-estimated in value by the adversor seeking a patronage among the largest agricultural constituency in America. Adverting in the Form and Fireside, brings quick, certain and satisfactory results. Do you want a share of it?

There's a certainty about results from advertising in the Farm and Firesini which makes it the "Monirch of the Rural Press." Ask any one of the hundreds of advertisers who have used it. As a medium to secure mail orders it heads the list.
